

Built for Projects. Beyond the Season.

Professional Outdoor Lighting Solutions

Trusted by Contractors, Loved by Families.

C7 LED Faceted Bulbs

①

Low-heat design, safe and energy-efficient

Low heat output ensures safe, energy-efficient operation—ideal for extended use during the holidays.

②

Enhanced brightness, stronger light efficiency

Enhanced brightness delivers vivid, uniform illumination—making your holiday decor stand out.

③

Internal waterproof structure, suitable for outdoor use

Water-resistant internal design ensures reliable performance in all outdoor conditions.

④

UV-resistant lamp housing, high weather resistance

UV-resistant housing resists fading and discoloration, ensuring long-lasting outdoor use.

G40 LED Faceted Bulbs

Christmas Lights Strings

1. Anti-Leakage Design for Electrical Safety

Ensures safe operation with enhanced insulation and leak-proof protection.

2. Reinforced Structure for Superior Durability

Optimized construction prevents breakage and offers long-term reliability.

3. Over-Torque Protection to Prevent Damage

Built-in safety mechanism guards against incorrect installation or overtightening.

4. Professional-Grade Quality for Commercial Projects

Engineered to meet the demands of professional decorators and large-scale installations.
